Auditing Services

Improving the existing infrastructure is a catalyst to optimize the operations and in turn helps to create a sustainable and safe business environment. Evaluating the existing or new upcoming installation, challenging the current consumption on energy usage or raising the safety bar, is the goal we carry, every time we touches the site. Our reporting defines a systemic, critical appraisal of deployed system and suggesting appropriate measures.

- Energy Audit
- Ventilation Audit
- Compressed Air Audit
- Electrical Safety Audit
- Environmental Audit
- HAZOP Studies
- Safety as per IS 14489
- OHSAS 18001 Safety Audit
